

Dear \_\_\_\_\_

I need to go back to the North Pole tonight to help Santa get ready for his Christmas flight.

It's been fun spending time with you and your family this holiday season!

I'll miss all of you, but I'm already looking forward to next year.

Consider yourself hugged and loved. Thank you for being so kind, caring, and life giving.

I will always cherish our memories together.

Until next time, Merry Christmas!

Love, your Friend,
